

HARDING'S ALOOF IN OHIO CONTESTS

Efforts to Enlist His Support
in Campaign for Senate
and Governor Fail.

BURTON IS OUT OF RACE

State Election Is Expected to
Have Bearing on Presiden-
tial Fight in 1924

Special Dispatch to THE NEW YORK HERALD.
New York Herald Bureau,
Washington, D. C., April 29.

President Harding is maintaining a policy of hands off in the political arena of Ohio. His attitude toward the Ohio Republican party for the nomination for United States Senator and Governor. The contest is well under way and is between Eugene W. Burton, a close political friend of Mr. Harding, and a group of candidates who have been unavailing. It became known at the White House today, and he will have nothing to say until the primary elections are over, when the nominees will have the benefit of his advice and good wishes.

The intensity of the Republican contest is to be increased by the expected announcement of Walter F. Brown of Toledo as a candidate for United States Senator against Representative Simon D. Fess of Yellow Creek, chairman of the Republican Congressional Committee. Mr. Brown, who is in Washington as ex officio chairman of the Joint Congressional Committee on Reorganization of Executive Departments, and Mr. Fess are well known in the State. Both are close followers of Mr. Harding.

The Senatorial situation has been cleared up to some extent by the announcement of Representative Theodore E. Burton of Cleveland, formerly a member of the Senate, that he would not be a candidate. It is expected Mr. Burton will throw his support to Mr. Brown.

Fess Strong Out-State.
Representative Fess is strong in the rural districts, while Mr. Brown's strength is in the cities. Mr. Brown was defeated by the rural vote when he ran for the Senatorial nomination two years ago. Senator Frank B. Willis being placed on the ticket. The expectation, however, is that the contest will be hard fought.

Carmel A. Thompson of Cleveland is the only national figure after the gubernatorial nomination, having as his chief opponent, Harvey C. Smith of Zanesville, Secretary of State of Ohio. In the contest for Governor also are State Senator Arthur H. Day of Cleveland, author of the Ohio home law, and Representative Rupert Beetham of Cadiz, Speaker of the Ohio House.

Efforts are being made in some quarters to have it appear that President Harding and Attorney-General Daugherty, also of Ohio, are backing Mr. Brown for the Senatorial nomination and Mr. Thompson for Governor. This, however, is denied. It being asserted by those in a position to know that neither Mr. Harding nor Mr. Daugherty will have a thing to say about the primary contest.

In matters said Mr. Thompson seems to be the favorite for the gubernatorial nomination. He is preparing to make the accomplishments of the Washington conference on the limitation of armaments the chief issue. Mr. Thompson was a member of the advisory committee and drafted the resolution adopted by the nations outlawing the use of poison gas in warfare.

Davis Out of Race.
Gov. Harry Davis has withdrawn from the race for reelection, which has cleared the situation somewhat. He has been popular with all factions of the Republican party in Ohio, due to many local elements, one of them the matter of prohibition enforcement.

Republicans in Washington are watching the Ohio developments with interest, not only because it is President Harding's home State but also because of the possible bearing the result of the November elections there will have on the contest in 1924. The Democrats are setting out with the determination of winning both the Senatorial and the Governorship, because of the moral effect a victory would have on the rest of the country.

Senator Atlee Pomerene will be a candidate for reelection. He will not be opposed in the primaries, so that the only Democratic contest will be over the Governorship. Efforts are being made by the Democratic organization to induce Judson C. Harmon, formerly Governor and a contender for the Democratic Presidential nomination in 1912 to make the race again. In which event Hugh L. Nichols would run for Lieutenant Governor. Mr. Harmon, being 78 years old, does not want to run, but he is being urged to do so on the ground that he would carry the State.

Donahoe for Governor.
The only avowed candidate is A. V. Donahoe of New Philadelphia, who ran on the Democratic ticket for Governor in 1920. Mr. Donahoe ran about 300,000 votes ahead of the national Democratic ticket, which lost the State by 45,000, and feels himself entitled to the nomination, although the Democratic State organization is only lukewarm toward him. If Mr. Harmon does not become a candidate it is expected Mr. Donahoe will be opposed either by Mr. Nicholas or by George White, until recently chairman of the Democratic National Committee.

One of the interesting phases of the Democratic contest is the effect it will have on the Democratic Presidential race in 1924. James M. Cox, the nominee in 1920, will be in the race again, but if Senator Pomerene should be reelected it is not unlikely that he too will be a candidate. The situation is one fully realized by both the Cox and Pomerene forces.

INCOME TAX REDUCTION DEMAND IN BRITAIN

Great Body of Public Now
Pays 6 Shillings in Pound.

LONDON, April 29 (Associated Press).—All public interest in the work of the session of Parliament which began Wednesday appears to be concentrated on the budget, which Sir Robert Horne, the Chancellor of the Exchequer, will present on Monday. There is a great demand from business organizations and taxpayers generally for a reduction of the income tax by 1 shilling in the pound, and a number of the papers are printing forms of petitions for subscribers to fill in and forward to members of Parliament.

The demand for this reduction comes mainly from that great body of taxpayers which pays 6 shillings in the pound or 30 per cent. of the income. An agitation has been conducted by the newspapers for some time for a general reduction of the income tax by 1 shilling in the pound, and a number of the papers are printing forms of petitions for subscribers to fill in and forward to members of Parliament.

Loon Attacks Boy of 4 on Atlantic City Beach

ATLANTIC CITY, April 29.—Channing Goff, 5 years old, grandson of I. C. Goff, coal operator of Cleveland, Ohio, was chased and attacked on the beach this afternoon by a loon, which flew out of the surf and struck the boy several times on his legs with his long bill. The grandfather ran to the boy's assistance, as did several witnesses, but the loon showed no fear. After a struggle they managed to throw it into the water, and it dived under the surface. It came back after a few minutes and loitered about for some time, still showing fight.

TAXPAYERS SAVED \$1,000,000 A DAY

Senator Willis Praises Economy of Administration.

ATLANTIC CITY, April 29.—High praise for the present Administration was given to-night by United States Senator Frank B. Willis (Republican) of Ohio, in a speech at the fiftieth anniversary dinner of the Atlantic City Real Estate Board in the Ambassador Hotel.

"The Government is saving the taxpayers at the rate of \$1,000,000 a day," said Senator Willis. "These careful business methods have brought the expenses of the Federal Government \$582,000,000 below the expenditures of the preceding year. This same business acumen has made possible the reduction of almost 100,000 civil employees of the Government in a single year without in any way decreasing the efficiency of the service."

"Under carefully guarded Government aids we shall maintain under private ownership a merchant marine manned by American carrying our products to every port and our flag upon every sea."

"Housing conditions will be bettered only as there is more capital seeking investment. Capital will not seek investment as long as it can be hidden in tax free securities."

That the sales tax has been tried and found successful in twelve countries and seventeen of our own States, and that if accepted generally would substantially reduce the country's debts and stimulate business, was pointed out in a speech by Representative Isaac Bacharach of New Jersey, member of the Ways and Means Committee. He said:

"There have been a number of sales tax plans suggested. After a careful analysis and study of the situation, and based on my experience in and out of Congress, I believe the tax that would be the easiest to collect would be the manufacturers' or wholesale sales tax. At the rate of 1 per cent, even in these trying times, it would raise approximately \$500,000,000, and the substitution of such a tax with a reduction in the surtax schedule would, in my way of thinking, be an important factor in stimulating business."

FARM BLOC FAVORS LOWER RAIL TAXES

Joint Commission Indorses Private Operation.

Special Dispatch to THE NEW YORK HERALD.
New York Herald Bureau,
Washington, D. C., April 29.

The agricultural bloc is about to extend its influence toward a solution of the railroad problem. Representative Sydney Anderson (Minn.), chairman of the joint commission on agriculture, in a preliminary summary of a report about to be issued showed that the commission believed the Government should take a more active hand in the rehabilitation of the roads. Mr. Anderson urged that the Government attempt to set up for the railroad problem these guiding principles:

Reduced taxation of railroads by State and Federal Governments.
Freight rates high enough to produce "fair wages," cover fully cost of materials, meet fixed charges, pay dividends and leave a margin to attract new capital.

Issuance of more stock and fewer bonds.
Private operation indorsed as more efficient than public operation.

These principles represent the conclusions of the joint commission after a study of the railroad problem in its relation to the farming industry.

PLANT 15,000 TREES.
BUFFALO, April 29.—The planting of 15,000 trees as part of a reforestation project in Erie county was begun at the county farm at Alden today. Two hundred Boy Scouts, directors and officers of the Erie County Society for the Protection of Birds, Fish and Game and the Buffalo Society of Natural Sciences took part.

J. Maxwell Peyer practiced law in this city for seventeen years prior to his moving to San Francisco. He was in partnership with his brother, Harry Peyer, with offices in 350 Broadway.

Private operation indorsed as more efficient than public operation.

CUNARD AND ANCHOR LINES

Luxury for Leisurely
Travelers at Moderate Cost

SCYTHIA SAMARIA
LACONIA
CAMERONIA TUSCANIA
CARONIA CARMANIA

If speed is essential, the Cunard Weekly Express Service is the fastest on the Atlantic. Composed of the great Cunarders BERENGARIA, MAURETANIA and AQUITANIA. Sailings every Tuesday from New York. The LACONIA sails from Boston.

The addition of many splendid new steamers to their fleet, enables the Cunard Line to offer the traveling public over 100 sailings during the coming season. There is still excellent accommodation available for many of these sailings.

25 Broadway, New York

FRELINGHUYSEN HAS EDWARDS TO BEAT

Jersey Senate Battle Not Likely to Include Other Candidates.

Special Dispatch to THE NEW YORK HERALD.
TRENTON, April 29.—Formal announcement by Joseph S. Frelinghuysen of his candidacy for reelection to the United States Senate seems to make certain the final battle in New Jersey in November will be between Senator Frelinghuysen, Republican, and Governor Edward J. Edwards, Democrat.

Neither candidate is confronted with a prospect of serious opposition at the September primaries. George L. Record of Jersey City is, as he frequently has been before, a candidate for the Republican nomination for Senator, but he is not expected to prove a formidable opponent to Frelinghuysen.

With the backing of the powerful Hudson county organization, under the leadership of Mayor Hague, coupled with support of which he is certain in other parts of the State, Governor Edwards is equally assured of the Democratic nomination. Senator Alexander Simpson of Hudson is in the race, but will likely withdraw before the primaries.

Gov. Edwards thus far has not outlined any constructive program except to reiterate that he is unalterably opposed to prohibition or restrictive legislation applicable to individuals. It may be assumed his attitude will be one of general opposition to the Republican Administration, both with respect to foreign and domestic problems. He has not signified his position on the tariff, soldier bonus and other questions, but promised to issue statements from time to time giving his views.

Senator Frelinghuysen will base his claim for reelection upon the record he has made in Congress as well as upon that of the national Administration. Though confronted by opposition from various sources, among which are the "wet" forces of the State and the advocates of a soldier bonus measure, there is thus far no concerted movement against him of sufficient proportion to indicate the probability of his defeat.

Six years ago Senator Frelinghuysen carried the State by a plurality of approximately 9,000. His only real danger lies in a widespread change of public sentiment respecting national questions and prohibition enforcement.

CHURCH WINDOW SEEN ONLY FROM STREET

Lighting System Shows Christ Preaching to Multitude.

TOLEDO, April 29.—A church window which is said to have the distinction of being the first one in this country installed exclusively for display to the street has been placed in the First Westminster Church of this city.

The church has provided a special lighting system to illuminate the window from within. A few church windows elsewhere thus are illuminated, it is said, but these show from within, whereas this window is seen only from the street.

The window, which shows Christ preaching to the multitude, contains many figures and will carry its message visually seven nights in the week to the passerby.

GLITZBACH'S LAWYER HAS NEW YORK LICENSE

Meets Contentment of Counsel for Mme. Matzenauer.

SAN FRANCISCO, April 29.—Contentment of counsel for Mme. Margaret Matzenauer in her divorce action against Floyd Glitzbach, that her chauffeur husband could not request an opening of his default in the action except through an attorney resident in the State of New York, was answered today by Glitzbach's attorney, J. Maxwell Peyer.

Peyer displayed a New York license to-day and telegraphed Mme. Matzenauer's attorneys, the address of his brother, Harry Peyer, with whom he was associated at 350 Broadway, New York city, before coming to California early in 1922. Glitzbach to-day stated his intention to go ahead with his counter action for divorce. The hearing is set for May 8, in Monterey, Cal.

J. Maxwell Peyer practiced law in this city for seventeen years prior to his moving to San Francisco. He was in partnership with his brother, Harry Peyer, with offices in 350 Broadway.

Private operation indorsed as more efficient than public operation.

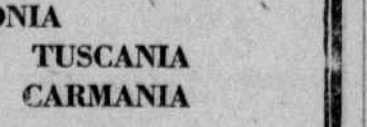

This Tiny Case of Etruscan Gold

has an especial appeal because it is small enough to make the barest possible bulge in one's purse. Etruscan gold with the top studded with pearls or medallion, set with French blue enamel. . . . 4.95

And in the Boudoir
But the most attractive powder box comes from Paris and stands on one's dressing table. Made of blue China with a French figure hand-painted on the top. Outfitted with powder and puff. . . . 1.95

Called the Flapper Puff
Named the flapper puff, perhaps, because it comes in shades of bright rose, blue, lavender felt to match the young girl's tweed suit. A flat little puff and case, easily slipped in and out of one's pocket. . . . 55c
